BRISTAN Showers are on page 74

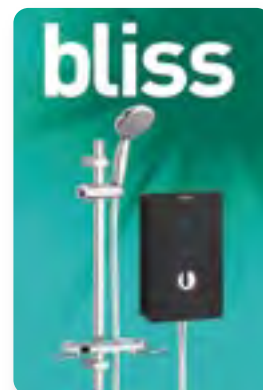

5 connection points makes fitting a doddle

Introducing the brand new range of electric showers from Bristan. They're designed to make fitting really easy, thanks to their 5 water inlet and 5 electrical cable entry points. And that's not all. With a versatile footprint that covers most manufacturers' fixings and an adjustable riser rail that uses the existing holes, these showers really are a doddle to fit. With a range of feature-packed models to choose from, in 8.5kW, 9.5kW and 10.5kW ratings, your customers will love the way they look every time they step into the shower. So, make your life easier, get your hands on the ultimate replacement electric showers from Bristan and be happy. They are available now at all good plumbers merchants.

For full technical specification and stockist details please email customer@bristan.com or visit www.bristan.com/electrics
